## Eastern Rivers and Mountains Network Ecological Monitoring Plan

By National Park Service

CreateSpace Independent Publishing Platform. Paperback.

Book Condition: New. This item is printed on demand.

Paperback. 128 pages. Dimensions: 11.0in. x 8.5in. x

0.3in. Knowing the condition of natural resources in national

parks is fundamental to the National Park Services (NPS)

ability to manage park resources unimpaired for the

enjoyment of future generations. Beginning in 1992, with

additional support by the 1999 Natural Resource Challenge, the

NPS implemented a strategy to institutionalize natural

resource inventory and monitoring. The effort was undertaken

to ensure that the more than 270 park units with significant

natural resources possess the information needed for effective,

science-based resource management decision-making. The

national strategy consists of a framework having three major

components: 1) completion of basic resource inventories upon

which monitoring efforts can be based; 2) creation of

experimental prototype monitoring programs to evaluate

alternative monitoring designs and strategies; and 3)

implementation of ecological monitoring in all parks with

significant natural resources. This item ships from La

Vergne, TN. Paperback.
