This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2010 in the subject American Studies - Literature, grade: 1,7, Johannes Gutenberg University Mainz, language: English, abstract: In my paper, I will first provide a brief overview of Darwin's theory of evolution and of social Darwinism, the underlying principles of 'Call of the Wild'. Afterwards, I will examine the numerous Darwinist and social Darwinist aspects as they appear in the novel itself. This way, I want to help the reader understand why the survival of the fittest plays a major role in 'Call of the Wild'. Moreover, I want to show what view of human society can be deduced from London's depiction of life in the novel. Jack London's 1903 novel 'The Call of the Wild' is a classic example of a literary work dealing with life in the wilderness, the struggle for existence, and the survival of the fittest. Indeed, the survival of the fittest rules all encounters in the story. This realistic way of describing nature as dictated by Darwinian principles is certainly one of the reasons why the story...
