

## Proceedings of the Fourth European Conference on Mathematics in Industry

Filesize: 2.97 MB

### ***Reviews***

*It is really an incredible publication that we have possibly study. Of course, it really is engage in, continue to an interesting and amazing literature. You are going to like how the writer compose this publication.*

*(Bailey Lehner)*

## PROCEEDINGS OF THE FOURTH EUROPEAN CONFERENCE ON MATHEMATICS IN INDUSTRY

To read **Proceedings of the Fourth European Conference on Mathematics in Industry** eBook, make sure you refer to the web link listed below and save the file or get access to additional information which might be highly relevant to PROCEEDINGS OF THE FOURTH EUROPEAN CONFERENCE ON MATHEMATICS IN INDUSTRY ebook.

Springer Sep 2011, 2011. Taschenbuch. Book Condition: Neu. 235x155x24 mm. This item is printed on demand - Print on Demand Titel. Neuware - The Fourth ECMI Conference on Industrial Mathematics took place at Strobl in Austria, May 29-June 2, 1989. The conference was devoted to the exchange of ideas, models and methods from various fields of industrial applications of mathematics. About 140 people from 21 countries attended the meeting. The aim was to bring together people from industry and from university. In this respect the organizers were only partly successful! The participation of about 20 people from industry shows that there is still much work to be done to increase the acceptance from this side. 72 speakers presented their results as invited or contributed lectures, or in the frame of 2 minisymposia. One minisymposium was organized by Heinz W. Engl and focused on steel processing, the other one, organized by Hansjorg Wacker, dealt with chemical engineering. These proceedings consist of 56 papers. The articles within each of the sections: Invited Lectures, Minisymposium Steel Processing, Minisymposium Chemical Engineering, and Contributed Lectures are in alphabetical order of the first author. Except for the contributions to the minisymposia, which clearly concentrate on the corresponding topics, it is hard to find a reasonable classification of the papers. This, we believe, is typical for industrial mathematics and underlines the vast variety of fields where mathematics could be used to support problem solving. We would like to acknowledge the valuable work of the referees of the articles who certainly helped to improve the quality of this volume. 448 pp. Englisch.
