

Annals of the Astronomical Observatory of Harvard College Volume 78-79

Filesize: 8.91 MB

Reviews

If you need to adding benefit, a must buy book. It normally fails to cost a lot of. Its been designed in an extremely easy way in fact it is just right after i finished reading through this ebook by which basically transformed me, change the way i believe.

(Vernon Ritchie)

To save **Annals of the Astronomical Observatory of Harvard College Volume 78-79** eBook, remember to click the button beneath and download the ebook or gain access to additional information which are have conjunction with ANNALS OF THE ASTRONOMICAL OBSERVATORY OF HARVARD COLLEGE VOLUME 78-79 ebook.

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1913 Excerpt: .well. 22. This star is faint. It appears to vary slightly in brightness, but the variation, if genuine, is so small that no attempt has been made to determine the period. 23. This star appears to vary slightly in brightness, but the variation, if genuine, is so small that no attempt has been 24. The period given is probably about right. There are a number of large residuals from the smooth curve, but these appear to be due to the difficulties of measurements. 25. This star is always comparatively bright. It appears to vary slightly, but the variation, if genuine, is so small, that no attempt has been made to determine the period. 26. The period of this star is doubtless about right, although there are many rather large residuals from the smooth curve. These appear, however, to be due to the accidental errors of measurement. 27. This star is near the centre of the cluster and is a difficult object for measurement except on the best plates. The measurements are obviously inexact on many plates, as is shown in the case of those of J. D. 3695, and J. D. 3717, where they would not agree well with any short period whatever. In spite of the frequent large residuals from the smooth curve, however, the period given in the table is perhaps about right. 28. The elements given in the table appear to be satisfactory. 29. This star has one of the shortest periods found...
